Re: **Product approval for use with drinking water**

Based on SII test certificate no. 7012202926 for complying
with the requirements of SI 5452 (2016)

In accordance with the instructions of the Israeli Ministry of Health and after testing representative samples of the product and receiving a relevant information for it, we have no objection for the use of coating material type "ARC 855", made by "A.W CHESTERTON", USA, for drinking water applications up to 40°C.

Any modification of the product or its composition requires further examination and re-approval.

This correspondence does not constitute as a recommendation to use the mentioned product, and should not be published in the mass media.

This approval is valid until October 28, 2025.

Sincerely,
Assaf Amram
Head of Water section
Chemistry, Food and
Water Branch

This approval will be published in the certified products Bank for drinking water, which is updated each quarter

This document is not approval for marking the product with the Standards Mark
